**FOR IMMEDIATE RELEASE**

## **SAINT JOSEPH'S COLLEGE PARTNERS WITH EDLINK TO MANAGE EMPLOYER TUITION BENEFITS FOR ONLINE STUDENTS**

**CHICAGO, January 4, 2012-** EdLink – the country's largest provider of corporate tuition assistance management services, designs and manages tuition reimbursement programs for corporations across the United States – and Saint Joseph's College announced today that [Saint Joseph's College](#) has joined [EdLink's](#) growing Featured Provider Network. EdLink's Featured Provider Network is an expanding network of regionally accredited higher education institutes that offer preferred tuition rates to all of EdLink's clients.

This relationship will provide EdLink client companies and their employees with access to Saint Joseph's College wide array of online undergraduate, graduate and post-graduate degree programs.

Gwen DeCicco, business development recruiter at Saint Joseph's College, says the partnership *"helps online students by smoothing the application process for tuition benefits and helps the employer by administering the tuition benefit more efficiently."*

*"EdLink works to help our clients gain more strategic value from their tuition programs. We help them align relevant employee education with skills and competencies needed to remain competitive in the future,"* said Lynn Schroeder, Vice President of Sales and Marketing at EdLink. *"One of the great things about Saint Joseph's College is the number of online courses they offer for working adults to earn their degrees so they can balance work and family commitments with their educational tracks."*

### **About Saint Joseph's College**

Saint Joseph's College, a liberal arts and professional college since 1912, has offered distance education since 1976. Its programs include undergraduate and graduate degree programs in business administration, education, nursing, health administration, accounting, theology, long-term care, radiologic science. It also offers a degree completion program for the bachelor degree in general studies with concentrations in
